

Streaming Readiness Checklist

A great game day experience starts before kickoff. Complete the steps below to help ensure your network, devices, and staff are ready to deliver a reliable streaming experience for your guests.

Prepare Your Network

- ✓ Ensure your internet supports streaming during peak business hours
- ✓ Allocate 10 Mbps per device, plus bandwidth for other network use
- ✓ Use Ethernet connections whenever possible
- ✓ Confirm your router and network equipment support your available internet speeds
- ✓ Prioritize streaming and other business-critical systems over guest WiFi traffic

Test Your Setup

- ✓ Run a bandwidth test
- ✓ Test your setup by streaming a live event on every device you plan to use
- ✓ Confirm video and audio quality throughout your venue

Get Ready for Game Day

- ✓ Confirm all devices are online and ready to stream
- ✓ Review scheduled events
- ✓ Ensure staff know how to switch games and manage audio
- ✓ Assign a team member to oversee game day operations

Need Additional Help?

This checklist covers the essentials. For full streaming readiness steps and details on how to complete each item above, visit the [Help Center](#).

For additional support, contact EverPass at support@everpass.com or **866-588-3961**.

Support is available **Monday–Friday** from **9:00 AM–6:00 PM ET**, with extended hours during live events.
