Contents of the Box

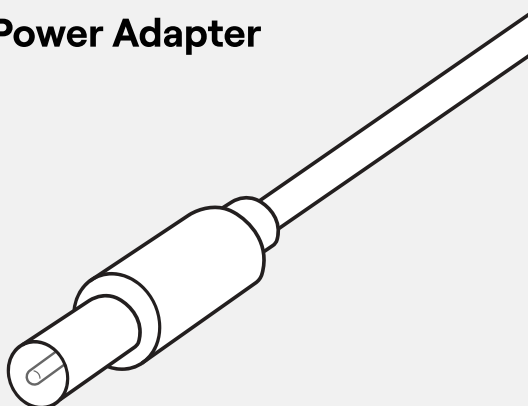

Your EverPass Device comes with everything you need to get started. Each box includes the items listed below.

If anything is missing, contact us at **(855) 787-7469** or **support@everpass.com**.

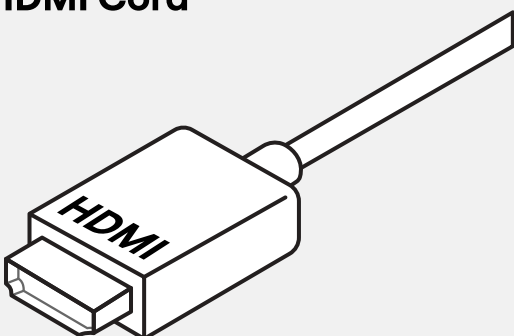

EverPass Device

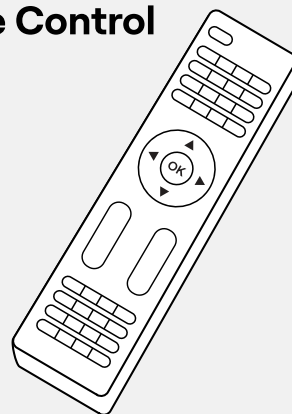

Power Adapter

HDMI Cord

Remote Control

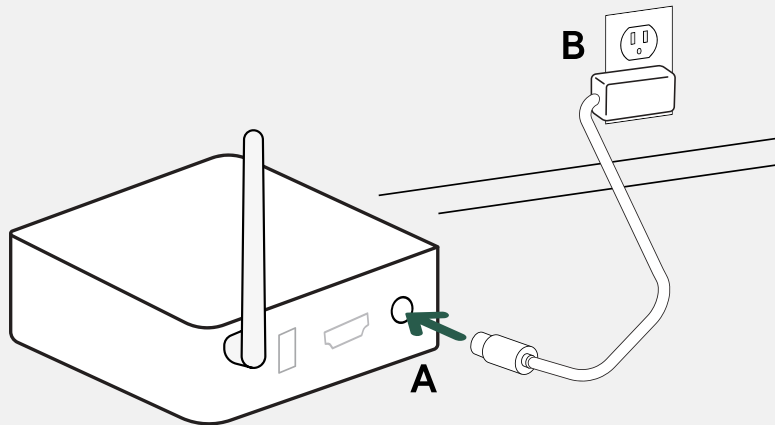

Step 1

Power Your EverPass Device

Step 1.1

Connect to Power

1. Plug one end (A) of the power cord into your device.
2. Plug the other end (B) of the power adapter into a wall outlet.
4. The device will power on automatically

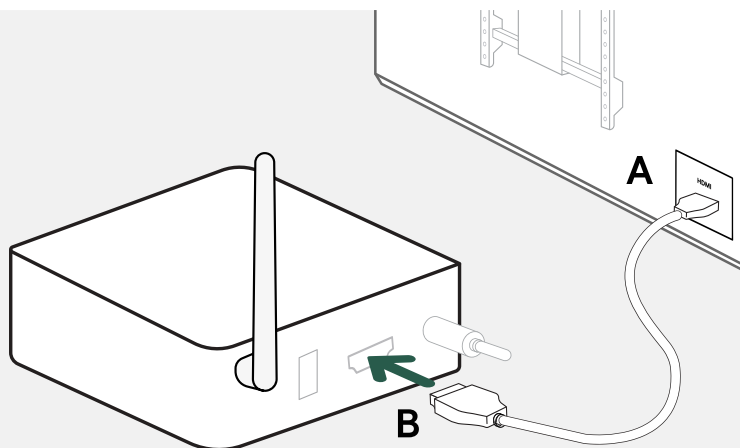

Step 1.2

Connect to TV

For one device per TV:

1. Use the included HDMI cable to connect to any HDMI input (A) on your TV
2. Connect the other end of the HDMI cable (B) into your device

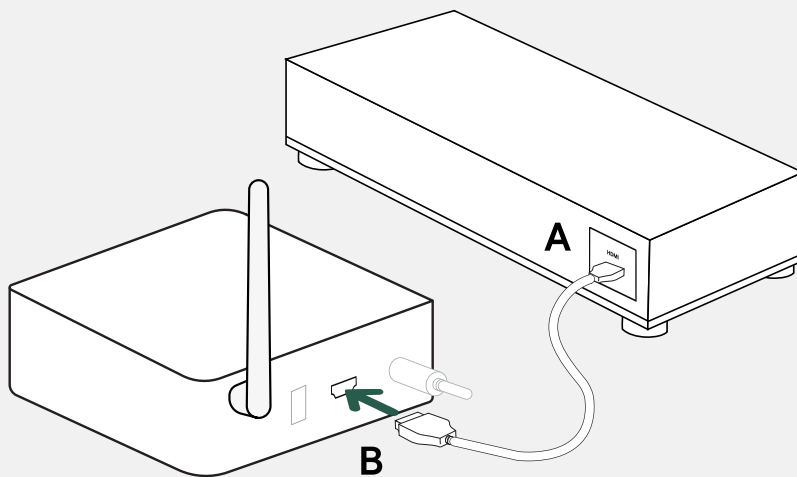

Step 1.3

Connect to AV System

For one device to multiple screens:

1. Use the included HDMI cable to connect to any HDMI input (A) on your AV rack
2. Connect the other end of the HDMI cable (B) into your device.

Step 2

Connect Your Device to the Internet

Network Connection Options

There are two ways you can connect your device to the internet:

1. Ethernet Cable
2. Wi-Fi Network

For the fastest and most reliable stream we recommend plugging an **Ethernet cable directly into your EverPass Device.**

If you would rather connect via Wi-Fi network, please proceed to the following steps.

Whether you connect using Ethernet or Wi-Fi, ensure your network has at least **10 Mbps** of dedicated bandwidth available for each EverPass Device to help deliver a smooth streaming experience.

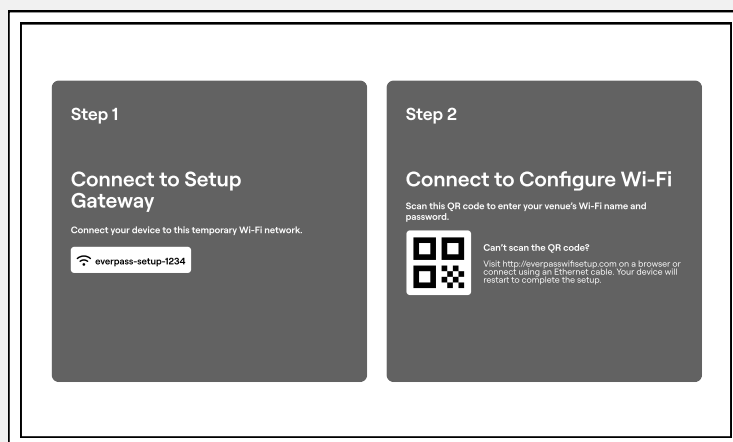

For example:

$$\begin{array}{ccc} \mathbf{5} & \times & \mathbf{10} & = & \mathbf{50} \\ \text{EverPass} & & \text{Dedicated} & & \text{Total Dedicated} \\ \text{Devices} & & \text{MBPS} & & \text{MBPS for Streaming} \end{array}$$

Step 2.1

Access Your Wi-Fi Setup

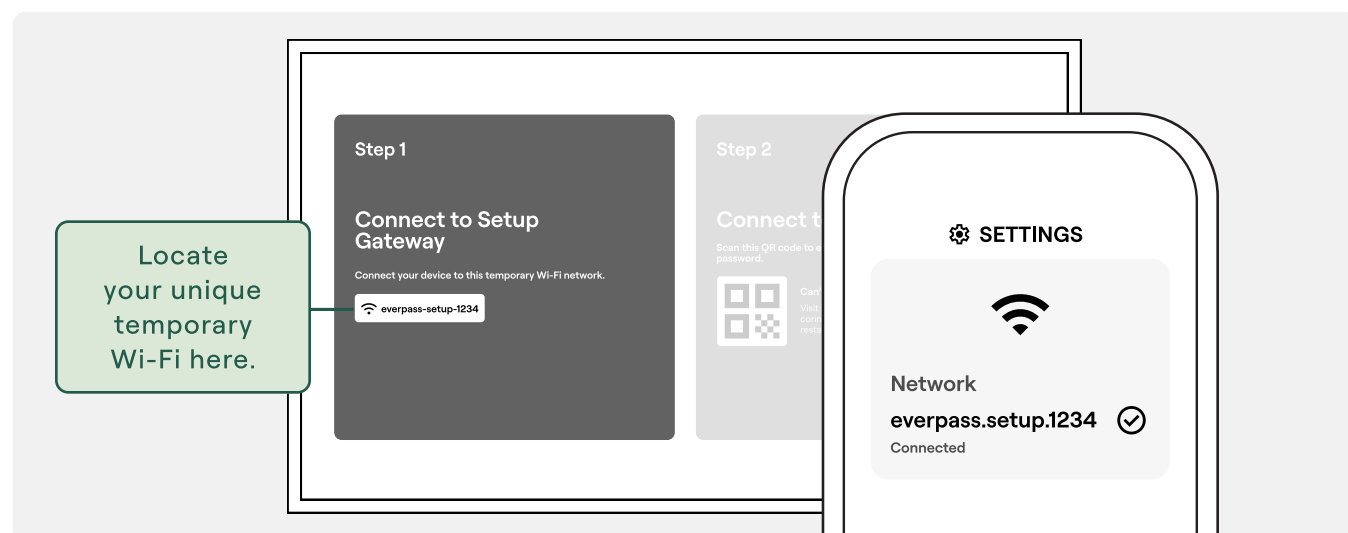

After powering on your EverPass device, the network set up guide will appear on screen. Use your smartphone to complete the next steps.

Step 2.2

Connect to Setup Gateway

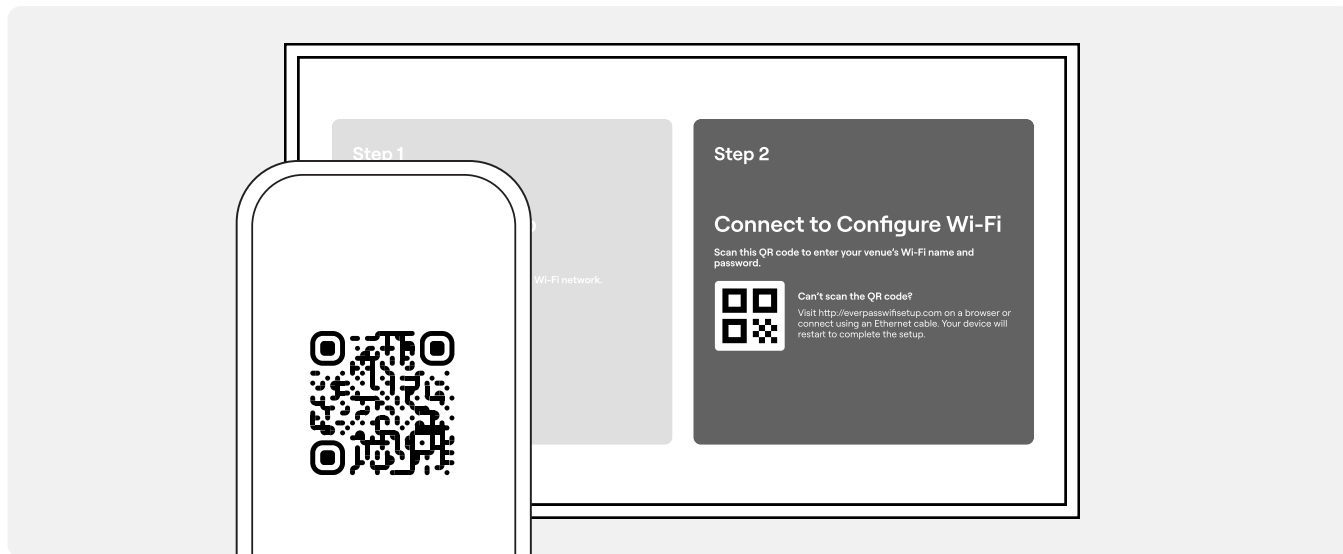

1. On your smart phone, open your Wi-Fi settings and join the temporary network listed on screen under Step 1.
2. Once your phone is connected, the screen will automatically move on to the next step.

Step 2.3

Scan to Connect and Configure Wi-Fi

Once your smart phone is connected to the temporary Wi-Fi, navigate to your smart phone's camera to scan the QR code on screen.

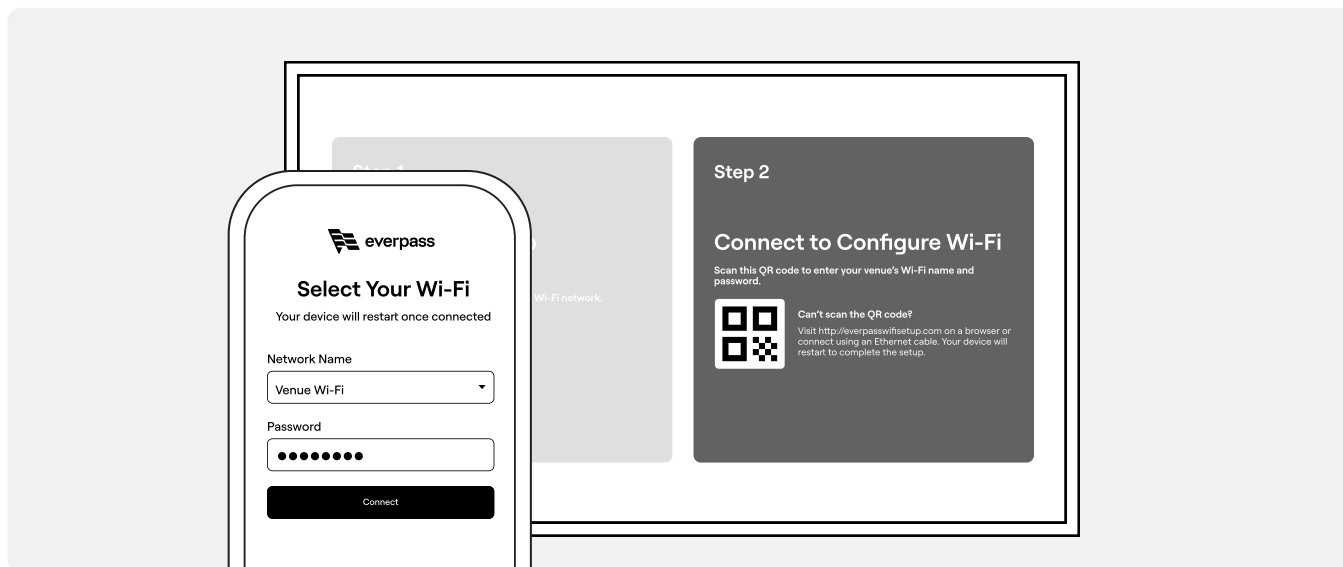

Step 2.4

Select Your Wi-Fi

Your smart phone will be redirected to the EverPass Wi-Fi setup in your browser.

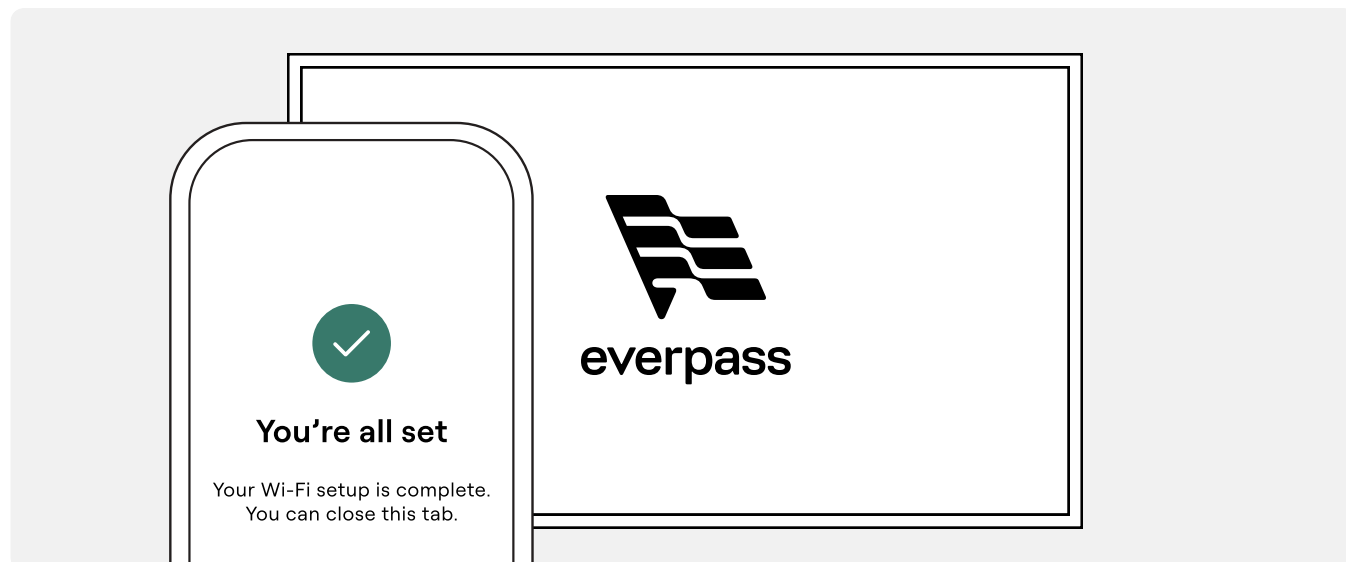

1. From the drop down menu, select your venue's Wi-Fi network.
2. Enter your Wi-Fi password and click connect.

Step 2.5

Device connected successfully

Once your connection is complete, the device will automatically restart. Please note this may take a few moments.

Step 3

Setup Checklist

Setup Checklist

Use this checklist to confirm that your device is fully set up and ready to use.

- ✓ **Connected to power**
Power cable is securely connected to the device and a power outlet
- ✓ **Connected to HDMI**
HDMI cable is securely connected between the TV and device
- ✓ **Connected to the Internet**
Device is connected to the internet using Ethernet or Wi-Fi

Congratulations! Your device setup is complete.

If you're using EverPass to schedule and display content, you can begin using [EverPass Manager](#).

Planning to stream live sports? Continue with the remaining setup steps.

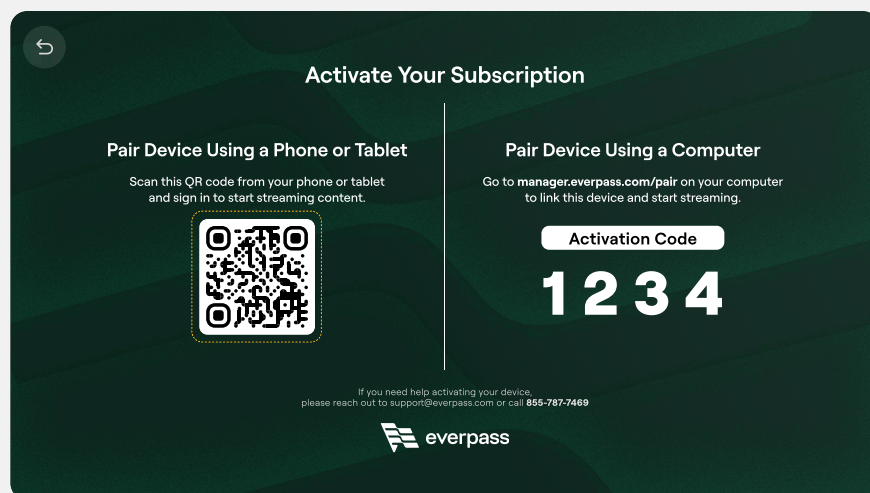

Step 4

Activate your Device

Step 4.1

Pair Device to Your Account

Once your device is online, you may be prompted to pair it with your account.

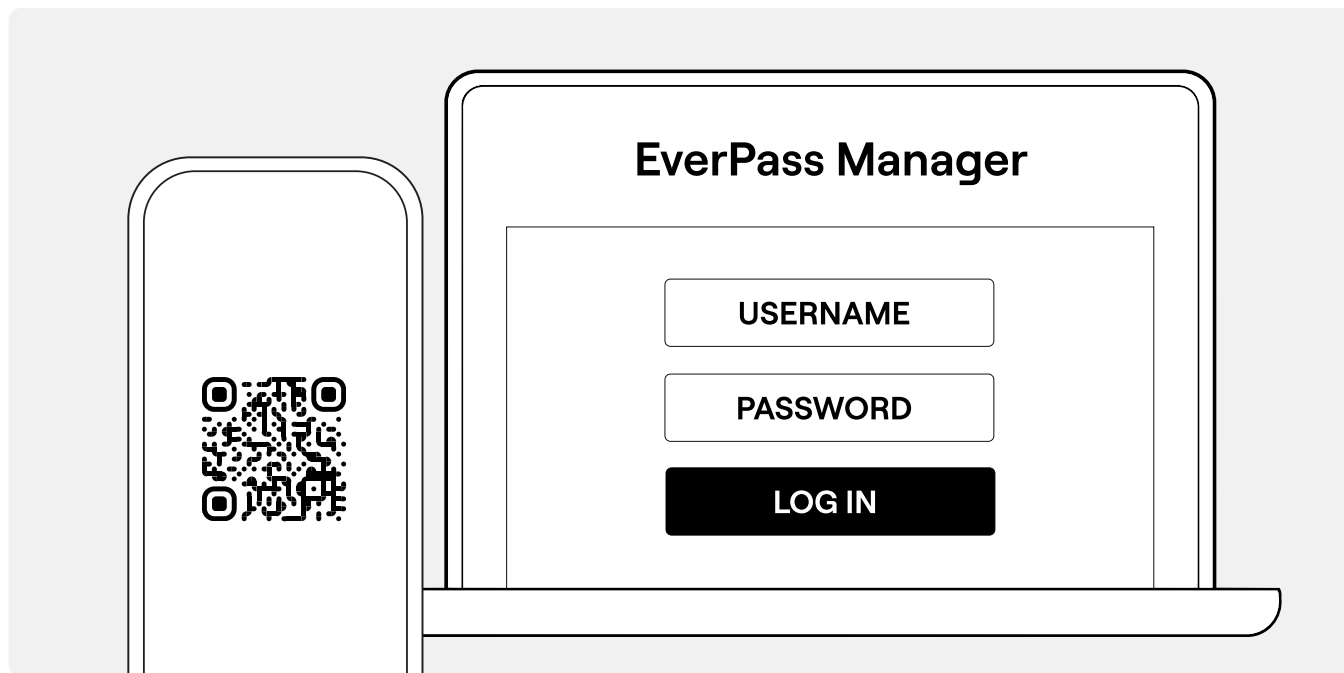

If this activation screen appears, complete Steps 4.1–4.4.
Otherwise, continue to Step 5.

Step 4.2

Activate Your Device

You will need a smartphone or laptop to complete this step.

1. Scan the QR code using your smartphone, or visit manager.everpass.com/pair on your laptop
2. Log in to your EverPass Account

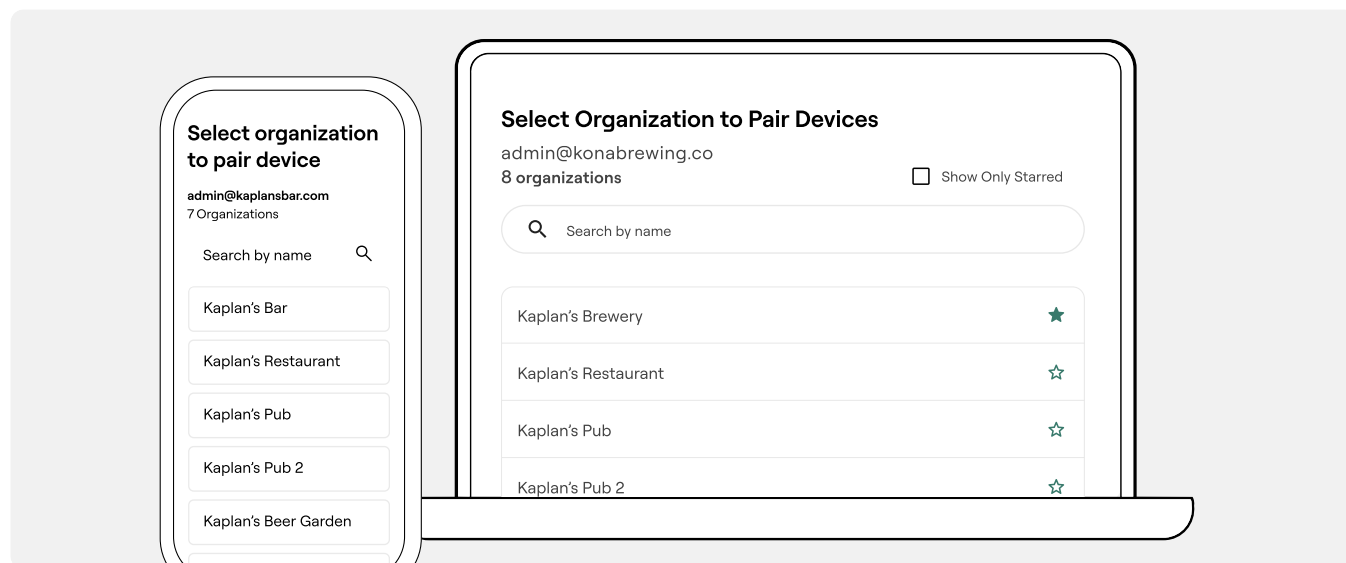

Please note: An active EverPass account is required to complete this step. If you need assistance activating your account, visit manager.everpass.com or contact EverPass Support.

Step 4.3

Select Your Organization

You will be automatically redirected to the device pairing screen.

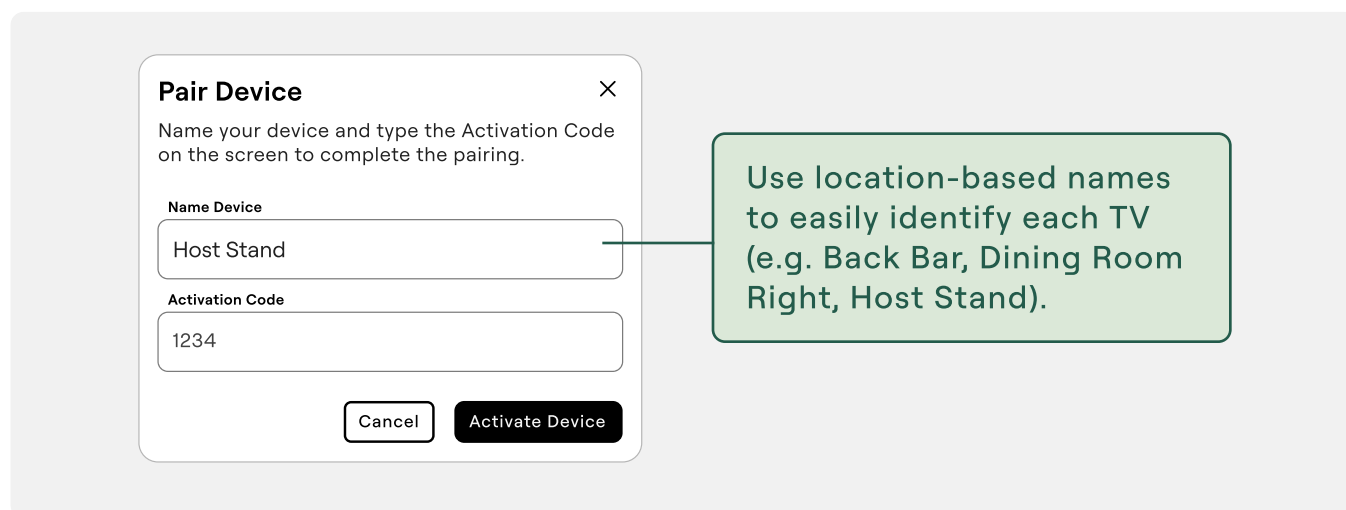

1. Select the account you want to pair your device to

Step 4.4

Enter Four-Digit Code

1. When prompted, name your device and enter the four-digit activation code displayed on your screen
2. Click Activate Device to complete the pairing

Step 5

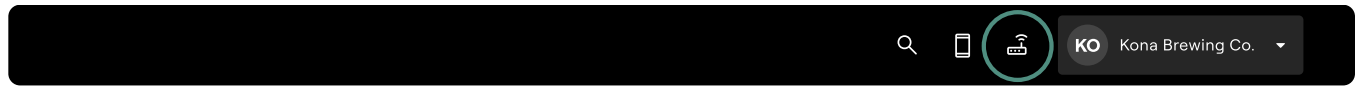

Rename Your Device

Step 5.1

Rename Your Device

Assign each device a unique name to make it easier to identify and assign content.

1. Log in to the EverPass Manager.
2. Go to Device Manager in the top-right corner

3. Click the pencil icon next to the device name

	Device Name		Status	Organization	Type
☐	EverPass #1		● Online	Kaplan's Bar & Grill	Mini 2
☐	EverPass #2		● 23 hours ago	Kaplan's Bar & Grill	Mini 2
☐	EverPass #3		● Pending	Kaplan's Bar & Grill	Mini 2
☐	EverPass #4		● Online	Kaplan's Bar & Grill	Mini 2

4. Enter a new name and click Save

Rename Device×

Device Name

Host Stand

Max Characters 50 (40 left)

Save

Use location-based names to easily identify each TV (e.g. Back Bar, Dining Room Right, Host Stand).

Step 6

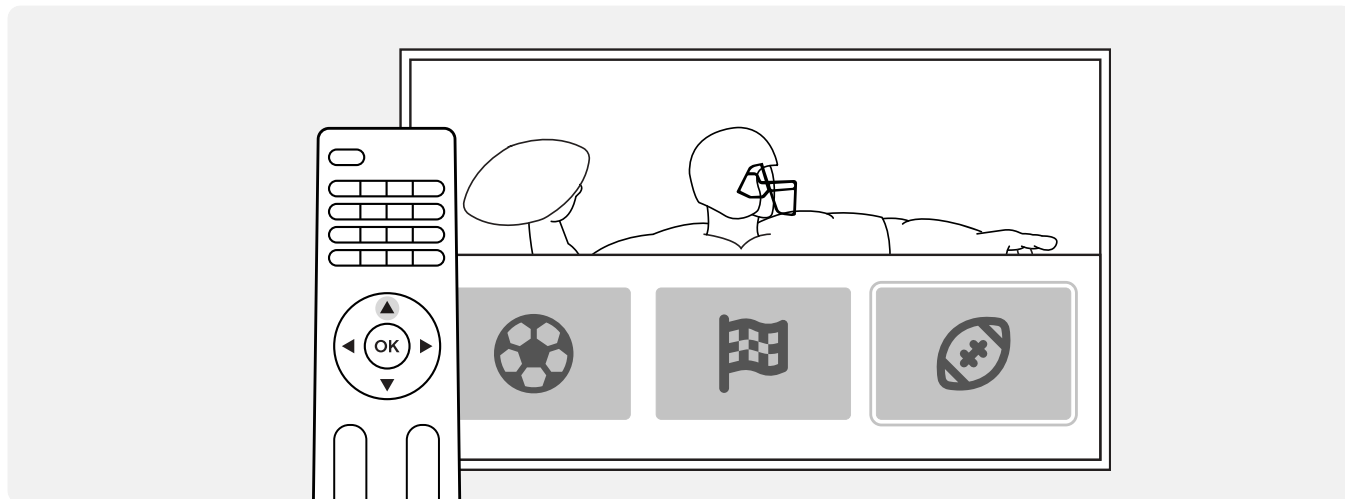

Navigate and Manage Your Content

Step 6.1

Enter the On-Screen Guide

To browse and select content directly from your TV:

1. Press the Up Arrow on your remote to open the On-Screen Guide

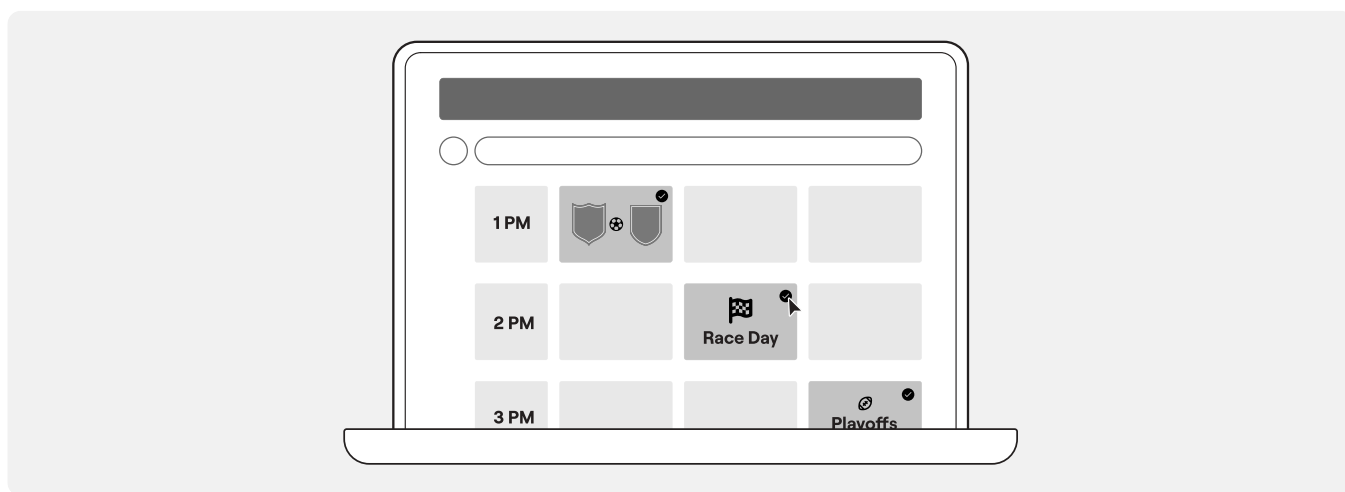

Step 6.2

Visit the EverPass Manager

To schedule content in advance or manage multiple screens and locations:

1. Sign into EverPass Manager at manager.everpass.com
2. For step-by-step guidance on how to use the EverPass Manager, please visit our [Help Center](#)

Step 7

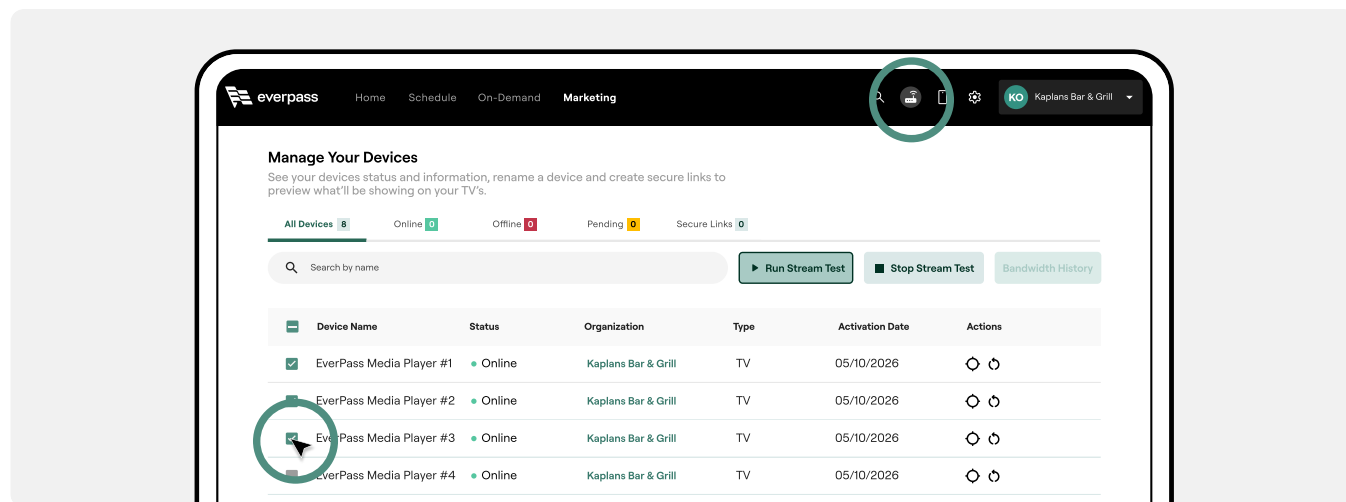

Run a Test Stream

Step 7.1

Select Your Devices

To test streaming on your devices:

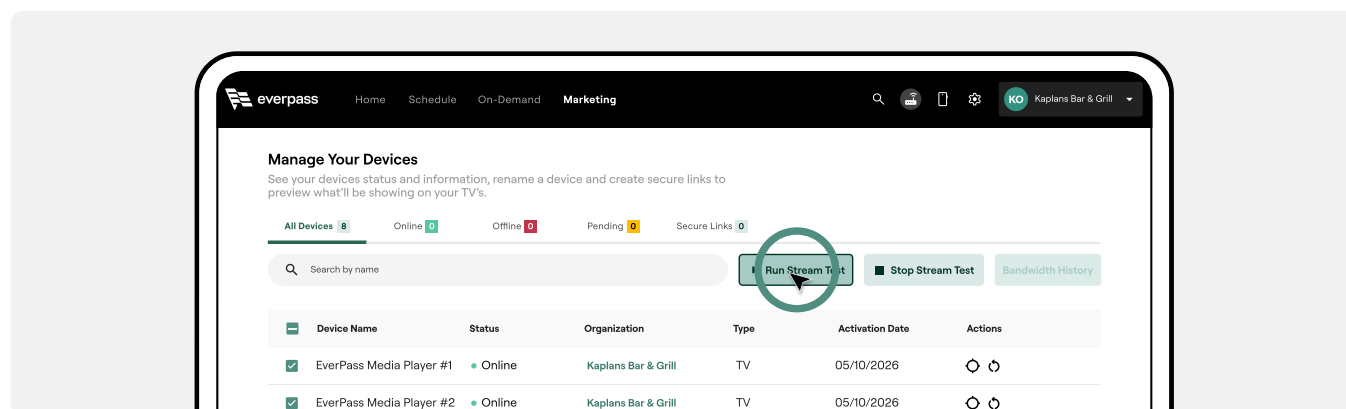

1. Visit the EverPass Manager on your computer at manager.everpass.com
2. Select Device Manager in the upper-right corner, to view a list of all connected devices
3. Select the devices you'd like to test by checking the box next to each device

Step 7.2

Click Run Test Stream

1. Click "Run Stream Test" to send a live test stream to those devices

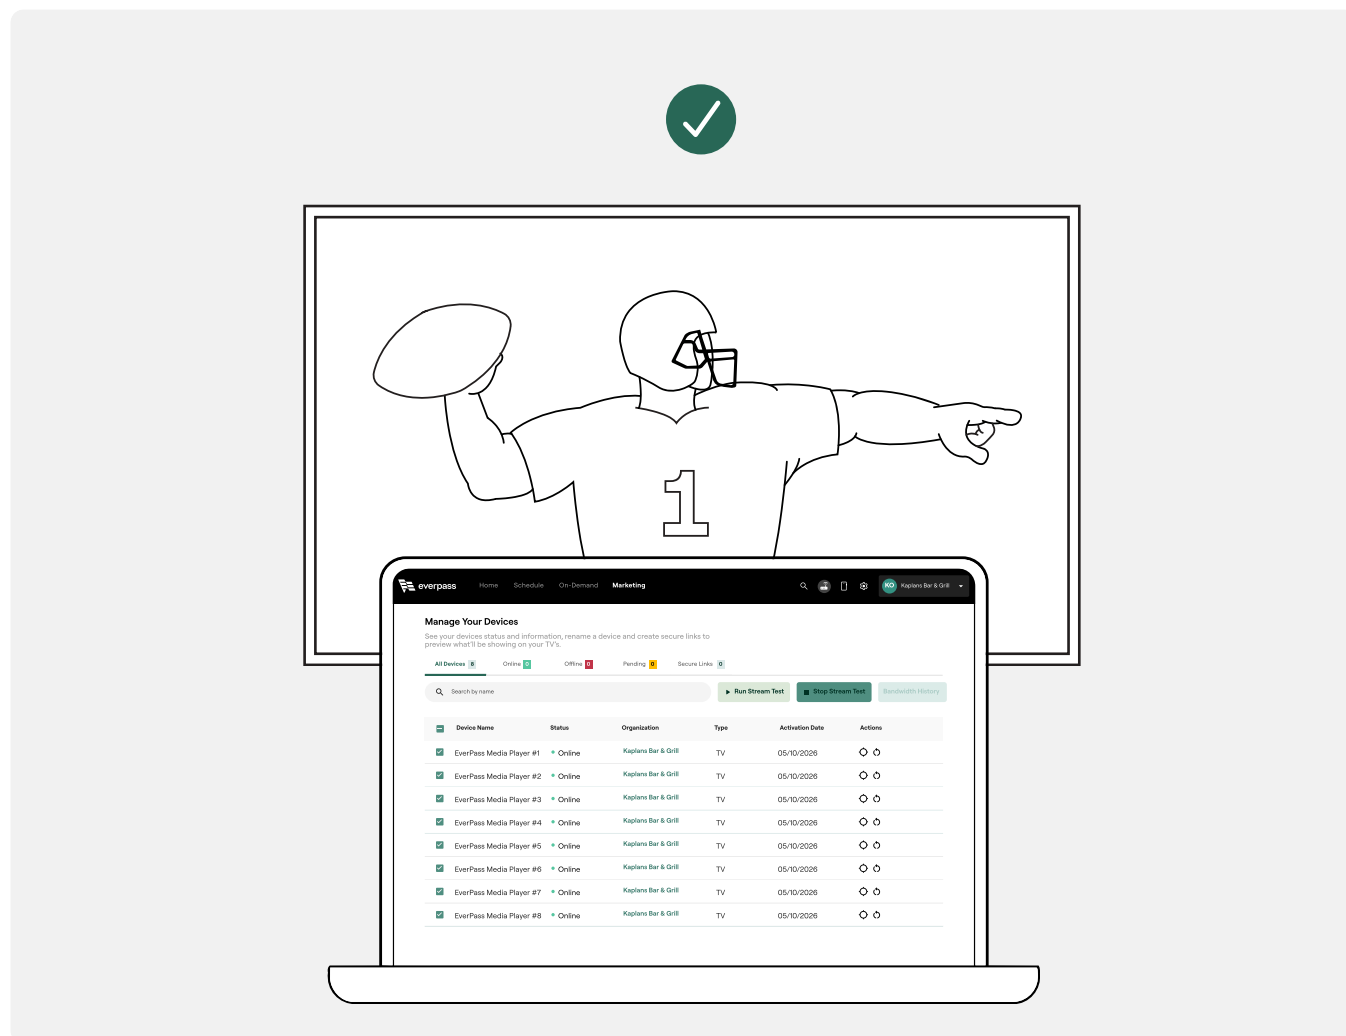

Please note: You can now also run the test directly from the On-Screen Guide, making it easier to check your setup while you're on site.

Step 7.3

Verify Audio and Video

1. Verify that both the audio and video play correctly on each screen
2. Complete the video to finish the Test Stream, or click “Stop Stream Test” to return to regularly scheduled content

Step 8

Streaming Readiness Checklist

Streaming Readiness Checklist

A great game day experience starts before kickoff. Complete the steps below to help ensure your network, devices, and staff are ready to deliver a reliable streaming experience for your guests.

Prepare Your Network

- ✓ Ensure your internet supports streaming during peak business hours
- ✓ Allocate 10 Mbps per device, plus bandwidth for other network use
- ✓ Use Ethernet connections whenever possible
- ✓ Confirm your router and network equipment support your available internet speeds
- ✓ Prioritize streaming and other business-critical systems over guest WiFi traffic

[Learn about network requirements →](#)

Test Your Setup

- ✓ Run a bandwidth test
- ✓ Test your setup by streaming a live event on every device you plan to use
- ✓ Confirm video and audio quality throughout your venue

[Review how to test your streaming setup →](#)

Get Ready for Game Day

- ✓ Confirm all devices are online and ready to stream
- ✓ Review scheduled events
- ✓ Ensure staff know how to switch games and manage audio
- ✓ Assign a team member to oversee game day operations

[See how to prepare for game day →](#)

Congratulations!

You're ready to stream live sports

Keep an eye out for our weekly Tune-In emails. They highlight upcoming live events, new content, product updates, and tips for getting the most out of EverPass Manager.

Help Center

Visit the [Help Center](#) to explore step-by-step guides, video tutorials, and troubleshooting resources that help you set up, manage, and get the most out of your EverPass Device.

Need Help?

If you need assistance, our dedicated Support team is here to help. Please contact us at **(855) 787-7469** or **support@everpass.com**

Support Hours:

Daily, 9 AM - 8 PM ET

Extended support hours are available during select live-streaming events.

Appendix

Detail Photos of the EverPass Mini 2 Device

Get familiar with the physical device you will be streaming on, and the location of all of the ports. We have provided more detailed photos on this page. You can also get more information on your device by visiting the [**EverPass CL435 specifications sheet**](#).

Congratulations!
